**To:** BREFORT Thierry (ENTR)  
**Subject:** PLC and interference

I'm strongly aganst PLC because it gives heavely interference whith HF receiving. I'm a licenced radio amateur and I want to keep up doing my hobby. I also transmit on HF and my neigbours will be unable to use PLC when I'm transmitting. This will cause problems whith my neigbours.

I think PLC is a verry verry bad idea!!!

Met vriendelijke groet,  
Gert-Jan Dam PG0G
